

Notification of Curriculum Update for Program of Biomedical Engineering (2017 UG Students)

1. To help the students adapt to the professional learning smoothly after major declaration, we have updated “IX. Pre-requisites for Major Declaration” in our current curriculum.

In this part, the statement of “NOTE: For the major required courses, there are 17 credits in the first two years and you should complete at least 30% of them.” has be changed to “NOTE: For the major required courses, there are 7 courses (21 credits) in the first two years and you should complete at least 4 courses of them.”

2. The course credit of “Fundamentals of Materials Science and Technology” (Major Fundamental Course) has been changed to 4. For 2017 UG international students, the minimum credit requirement for graduation has be changed to 140.5 (not including English courses).
